ONE Series

ONE SERIES

SIPCO offers a complete product line of standard and precision components.

SIPCO has been satisfying customers since 1984.

In that time, we have established a reputation for providing product services & Mechanical Linkage solutions to industries using motion control, power transmission, and hydraulic systems. Today, our products are in applications, including robotic, packaging, automotive, printing and material handling applications to name a few.

Through this experience, we are continually evolving, offering new innovative solutions for high-tech applications. When you have one source, you only have to place one order to fill your Mechanical Linkage needs.

CERTIFIED CLEAN ROOM CLASS

-ISO Class 3 and Class 1

VACUUM SYSTEM

ONE Series has specific connection nipples installed on the drive-end and idle-end of the units, where the vacuum systems will be connected.

SELECTED MECHANICAL COMPONENTS

ONE Series is assembled with selected high quality components.

DRIVEN BELT

Using selected high quality polyurethane timing belts, AT profile, manufactured by leading companies in this field.

LUBRICATION

This feature supports a long-term maintenance and a low particle generation if combined with special lubricant, specifically developed and adopted for Clean Room and Vacuum applications.

RANGE

ONE Series is now available in 3 different sizes, for multi-axis combinations. ONE 50, ONE 80 and ONE 110
